SUMMARY

Detail-oriented Front End Developer with three years of experience specializing in ReactJS. Highly adept at both independent and collaborative projects, with an emphasis on accessibility and responsive web design.

SKILLS

Front End: JavaScript, TypeScript ReactJS, NextJS, Jest, React Testing Library, Sass, HTML5, CSS3, jQuery
Back End: Version Control (Git), MongoDB, Firebase, MySQL, PHP
Graphics: Figma, Adobe Photoshop, Adobe Illustrator, Adobe XD

EXPERIENCE

Front End Developer (Contract)

Kollmorgen, Remote   *Jul 2022 – Nov2022*

- ❖ Revamp UI and app interface for customer-facing site with 1000+ unique visitors per month using HTML5, SCSS, jQuery, and Drupal.
- ❖ Reduce compiled CSS size from 1.5 megabytes to 86 kilobytes, significantly improving loading times across the entire site.
- ❖ Implement new site navigation to improve performance, SEO and streamline user navigation on mobile devices.
- ❖ Advise and execute unique design implementations to help customers better locate specific tools and facilitate the tracking of marketing leads.

Front End Developer   *Jan 2021 – June 2022*

Connectern, New York, NY

- ❖ Cooperated with a team of developers to build customer facing web applications using NextJS, React ContextAPI, React Hooks, and Styled Components.
- ❖ Implemented solutions for a streamlined, user-friendly interface with the design team and delivered an engaging user experience through optimization of images, code, and cross browser compatibility.
- ❖ Designed and built reusable and responsive React components that meet Web Content Accessibility Guidelines.
- ❖ Wrote unit and functional tests with Jest and React Testing Library to ensure functionality between components.

Front End Developer Intern   *Aug 2019 – May 2020*

Hunter College, New York, NY

- ❖ Rebuilt Hunter's Film and Media Department's Production Handbook with an updated design which was easier to navigate, update, and facilitated the location of forms used by hundreds of students and staff.
- ❖ Built and managed a site for a Hunter media class that was regularly used by professors and students to post assignments and responses.
- ❖ Identified problems with backend systems uncovered by testing or feedback and correct or referred them to appropriate personnel for correction.
- ❖ Translated UI wireframes and mockups made with Photoshop and Figma into responsive, interactive pages using HTML, CSS, JavaScript, jQuery, WordPress, and Dreamweaver.

EDUCATION

Bachelor of Arts (B.A.) Digital Media – May 2020   Hunter College, New York, NY
